

## SPEAKERS

---

Instructors and guest lecturers are scientific experts from governmental research institutions, organisations dedicated to agricultural development, farmers, food and agricultural industrialists and professors / associate professors from the University of Bordeaux.

- › **Dr. Gérard Barroso:** Associate Professor of microbiology and molecular biology, Mycology and Food Safety research unit, University of Bordeaux – INRAE, France
- › **Dr. Didier Bert:** Engineer, Biodiversity, Genes and Communities research unit, University of Bordeaux – INRAE, France
- › **Thomas Chadeleaud:** Operations manager – tomato greenhouses, Tom d'Aqui, France
- › **Dr. Frédéric Delmas:** Associate Professor of plant biology and biotechnology, Fruit Biology and Pathology research unit, University of Bordeaux – INRAE, France
- › **Dr. Beatrice Denoyes:** Senior research scientist, Fruit Biology and Pathology research unit, University of Bordeaux – INRAE, France
- › **Antoine Gaillard:** Scientific Director of the Maisadour Cooperative Group, France
- › **Dr. Amelia Gaston:** Research scientist, Fruit Biology and Pathology research unit, University of Bordeaux – INRAE, France
- › **Prof. Eric Gomes:** Professor of molecular and cellular biology, biochemistry and plant physiology, Ecophysiology and Grape Functional Genomics research unit, ISVV – University of Bordeaux – INRAE, France
- › **Prof. Michel Hernould:** Professor of plant development biology, coordinator of the Biology – Health Master programme, Fruit Biology and Pathology research unit, University of Bordeaux – INRAE, France
- › **Christian Letierce:** Managing Director, Planète Végétal, France
- › **Pierre Marazanof:** Sales and public relations manager, Château Couhins, French National Institute for Agronomy and Environment (INRAE), France
- › **Dr. Kentaro Mori:** Associate Professor of plant physiology and biology, Fruit Biology and Pathology research unit, University of Bordeaux – INRAE, France
- › **Dr. Justine Perrotte:** Doctor of physiology - fundamental research and variety creation, INVENIO, France
- › **Dr. Pierre Pétriacq:** Associate Professor of biochemistry and plant biology, Scientific Director of Bordeaux Metabolome, Fruit Biology and Pathology research unit, University of Bordeaux – INRAE, France
- › **Prof. Benoît Sautour:** Professor of ecology, Oceanic and Continental Environments and Paleo-Environments laboratory, University of Bordeaux – French National Center for Scientific Research (CNRS) - École Pratique des Hautes Études, France
- › **Prof. Valérie Schurdi-Levrau:** Professor in plant genetics, evolution and plant breeding, coordinator of the first year of the Plant biology and biotechnology Master programme, Fruit Biology and Pathology research unit, University of Bordeaux – INRAE, France
